Causes and effects of climate change in ROMANIA

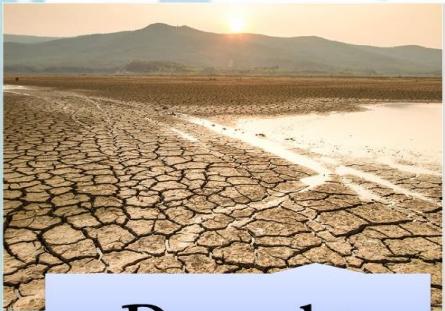

Global

Sea-rise level

Drought

Floods

Causes of migration:
economic, joining family,
study, conflicts, CLIMAT.

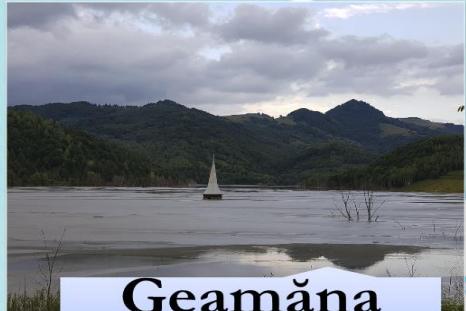

Migration

Human migration is the movement of people from one place to another, with the intention of staying permanently or temporarily in a new location.

Types of migration:
depending on the time (temporary, permanent);
depending on the character (forced, voluntary); depending on the destination (local, global).

Local

Geamăna
Village

Desertul cucerește Oltenia
10.000 de hectare de teren au devenit nisipoase în ultimii opt ani
Dăbuleni
City

Danube
Delta

5 Consequences of migration: political, economic, cultural, social, psychological.
